## FOREWORD

This Indian Standard ( Third Revision ) was adopted by the Bureau of Indian Standards, after the draft finalized by the Timber Sectional Committee had been approved by the Civil Engineering Division Council.

This standard was first published in 1957 covering abbreviated symbols only for 159 species of timber included in IS 399 : 1952 'Classification of commercial timbers and their zonal distribution ( tentative )'. It was subsequently revised in 1966 in view of the fact that several Indian Standards on wood and wood products had been issued and even IS 399 : 1952 had been revised by then covering a number of new species. At the time of first revision, the Sectional Committee responsible for the preparation of this standard decided that the abbreviated symbols once standardised should not be changed and, therefore, the rules given in 1957 version were appropriately modified to accommodate the standard trade names and abbreviated symbols for a considerably large number of species in such a manner that the inclusion of any species would not necessitate alteration of abbreviated symbols already standardised. The second revision of this standard was brought out in 1976 in view of the fact that botanical and trade names of some species had been changed and certain new species had been adopted over the period.

This third revision of the standard has been brought out for the following reasons:

- a) Botanical names of a few species have since changed.
- b) With the changing pattern of timber supply, recently, plantation forestry, including farm/agro-forestry, and import from foreign countries became important as sources of supply of timber market in the country.
- c) Over the recent years, lesser known species, including non-traditional timbers, increasingly replaced the primary species in the market.

In this revision, as in the second revision, the citation of single author after the botanical name is followed in order to maintain the accuracy for the identification of species. The practice of giving double citation, that is, mentioning the name of one author in parenthesis followed by the name of the other author has been thus discontinued. When reproducing the trade names, botanical names and abbreviations in individual specifications, the names of authors against botanical names need not be reproduced.

In a number of cases, a single trade name is in usage for more than one species of the same genus when such species have similar properties and are not easily distinguishable from one another. In such instances, instead of giving each and every botanical name only the generic name is mentioned followed by the abbreviation 'spp.'

The Committee responsible for the preparation of this standard is given at Annex C.

*Indian Standard*  
**TRADE NAMES AND ABBREVIATED SYMBOLS  
FOR TIMBER SPECIES**  
*( Third Revision )*

**1 SCOPE**

This standard covers trade names and abbreviated symbols for different timbers, including imported species, commonly used in this country.

**2 RULES FOR ABBREVIATED SYMBOLS**

**2.1** The abbreviated symbols shall normally consist of the first three letters of the standard trade names as given in this standard.

**2.2** Where two or more trade names have the first two or more letters in common, their abbreviated symbols shall consist of the first two letters and any subsequent letter such that no two timbers will have the same symbol.

**2.3** In case two or more timbers will have the same symbol even after strictly following the rules given above, repetition of the symbols shall be avoided by taking the first, third and fourth or any subsequent

letter for constituting the abbreviated symbol.

**2.4** Where the standard trade name is in two words, the first letter of the first word and first two letters of the second word shall be taken to form the abbreviated symbol.

**2.5** Where repetition of a symbol cannot be eliminated even after following the rule given in **2.3**, the abbreviated symbol shall be constituted by transposing the second or third and any subsequent letter.

**2.6** Abbreviated symbols once standardised shall not be changed except where the standard trade name itself is revised.

**3 ABBREVIATED SYMBOLS**

**3.1** The trade names and abbreviated symbols for 288 different timbers and 42 currently imported timbers are given in Table 1 and Table 2 respectively with their index of botanical names in Annex A and Annex B.

**Table 1 Trade Names and Abbreviated Symbols of Timber Species Grown in India**  
( Clause 3.1 )

| Sl No. | Standard Trade Name           | Botanical Name   | Abbreviated Symbols |
|--------|-------------------------------|--|---------------------|
| 1.     | Agarwood                      | <i>Aquilaria agallocha</i> Roxb.   | AGA                 |
| 2.     | Aglaiia                       | <i>Aglaiia</i> spp.  | AGL                 |

**ANNEX A**  
( Clause 3.1 )

**INDEX OF BOTANICAL NAMES OF TIMBER SPECIES GROWN IN INDIA**

| <i>Botanical Name</i>  | <i>Standard Trade Name</i> |
|--|----------------------------|
| <i>Abies densa</i> Griff.  | Red Fir                    |
| <i>Abies</i> spp. (other than <i>Abies densa</i> Griff.)                                   | Fir                        |
| <i>Acacia catechu</i> Willd.   | Khair                      |
| <i>Acacia chundra</i> Willd.   | Lal-Khair                  |
| <i>Acacia ferruginea</i> DC.   | Parambi                    |
| <i>Acacia leucophloea</i> Willd.   | Hiwar                      |
| <i>Acacia monesta</i> Wall.  | Phulai                     |
| <i>Acacia nilotica</i> Del. spp.   | Babul                      |
| <i>indica</i> (Benth.) Brenan  |                            |
| <i>Acacia tortilis</i> Hayne   | Israeli Babul              |
| <i>Acer</i> spp.   | Maple                      |
| <i>Acrocarpus fraxinifolius</i> W. & A.  | Mundani                    |
| <i>Adenanthera pavonina</i> Linn.  | Ywegi                      |
| <i>Adina cordifolia</i> (Roxb.) Hook. f.   | Haldu                      |
| ex. Brandis ( <i>Haldina cordifolia</i> Ridsd.)  |                            |
| <i>Adina oligocephala</i> Havil ( <i>Haldina oligocephala</i> Ridsd.)                      | Haldu Sopa                 |
| <i>Aegle marmelos</i> Corr.  | Bael                       |
| <i>Aesculus indica</i> Colebr.   | Horse Chestnut             |
| <i>Aglaia</i> spp.   | Aglaia                     |
| <i>Ailanthus integrifolia</i> Lam.   | Gokul                      |
| <i>Ailanthus</i> spp. (other than <i>A. integrifolia</i> Lam. & <i>A. triphysa</i> )       | Maharukh                   |
| <i>Ailanthus triphysa</i> (Dennst.) Alston<br>(Syn. <i>A. malabarica</i> DC.)              | Matti                      |
| <i>Albizia chinensis</i> Merr.<br>(Syn. <i>A. stipulata</i> Boiv.)                         | Siris                      |
| <i>Albizia falcateria</i> (Linn.) Fosb.<br>( <i>Paraserianthes falcateria</i> Fosb.)       | White Albizia              |
| <i>Albizia lebbeck</i> Benth.  | Kokko                      |
| <i>Albizia odoratissima</i> Benth.   | Kala-Siris                 |
| <i>Albizia procera</i> Benth.  | Safed-Siris                |
| <i>Alnus</i> spp.  | Alder                      |
| <i>Alstonia scholaris</i> R.Br.  | Chatian                    |
| <i>Altingia excelsa</i> Noronha  | Jutili                     |
| <i>Amoora</i> spp.   | Amari                      |
| <i>Anacardium occidentale</i> Linn.  | Cashewwood                 |
| <i>Anacolosia densiflora</i> Bedd.   | Anacolosia                 |
| <i>Anogeissus acuminata</i> (Roxb. ex. DC.)<br>Guill. & Perr.                              | Yon                        |
| <i>Anogeissus latifolia</i> Bedd.  | Axlewood (Bakli)           |
| <i>Anogeissus pendula</i> Edgew.   | Kardhai                    |
| <i>Anthocephalus Chinensis</i> A. Rich. ex.<br>Walp. (Syn. <i>A. Cadamba</i> (Roxb.) Miq.) | Kadam                      |
| <i>Antiaris toxicaria</i> Leschen  | Upas                       |
| <i>Aphanamixis polystachya</i> Parker<br>(Syn. <i>Amoora rohituka</i> W. & A.)             | Pitraj                     |
| <i>Aquilaria agallocha</i> Roxb.   | Agarwood                   |
| <i>Artocarpus chaplasha</i> Roxb.<br>(Syn. <i>A. chama</i> Buch.-Ham.)                     | Chaplash                   |

| <i>Botanical Name</i>  | <i>Standard Trade Name</i> |
|--|----------------------------|
| <i>Artocarpus heterophyllus</i> Lam.<br>(Syn. <i>A. integrifolius</i> Linn.f.) | Kathal                     |
| <i>Artocarpus hirsutus</i> Lam.  | Aini                       |
| <i>Artocarpus lacucha</i> Buch.-Ham.<br>(Syn. <i>A. lakoocha</i> Roxb.)        | Lakooch                    |
| <i>Atalantia monophylla</i> DC.  | Jungli Nimbu               |
| <i>Avicennia officinalis</i> Linn.   | Baen                       |
| <i>Azadirachta indica</i> A. Juss.   | Neem                       |
| <i>Baccaurea courtallensis</i> Muell.  | Baccaurea                  |
| <i>Barringtonia acutangula</i> Gaertn.   | Hijal                      |

| <i>Xylocarpus</i> spp.  | Pussur                     |
| <i>Zanthoxylum rhetsa</i> DC.<br>(Syn. <i>Fagara budrunga</i> Roxb.)  | Mullilam                   |
| <i>Ziziphus</i> spp.  | Ber                        |

**ANNEX B**  
( Clause 3.1 )

**INDEX OF BOTANICAL NAMES OF IMPORTED TIMBER SPECIES**

| <i>Botanical Name</i>   | <i>Standard Trade Name</i>      |
|---|---------------------------------|
| <i>Afromosia angolensis</i> Harms   | Afromosia                       |
| <i>Amoora cuculata</i> Roxb.  | Amoora                          |
| <i>Anisoptera costata</i> Korth.  | Mersawa                         |
| <i>A. curtisii</i> Dyer. ex. King   | Mersawa                         |
| <i>A. kostermansiana</i> Dilmy.   | Mersawa                         |
| <i>A. laevis</i> Ridl.  | Mersawa                         |
| <i>A. marginata</i> Korth.  | Mersawa                         |
| <i>A. megistocarpa</i> V.Sloot  | Mersawa                         |
| <i>A. polyandra</i> Bl.   | Mersawa                         |
| <i>A. scaphula</i> (Roxb.) Kurz   | Mersawa                         |
| <i>A. thurifera</i> (Blco.) Bl.   | Mersawa                         |
| <i>Araucaria angustifolia</i> O.Ktze  | Parana Pine<br>(Brazilian Pine) |
| <i>Aucoumea klaineana</i> Pierre  | Okoume (Gaboon)                 |
| <i>Bischofia javanica</i> Bl.   | Cedar Java                      |
| <i>Calophyllum biflorum</i> M.R.H & Wyatt-Sm                                | Bintangor                       |
| <i>C. canum</i> Hook.f.   | Bintangor                       |
| <i>C. coriaceum</i> Hend. & W.S.  | Bintangor                       |
| <i>C. depressinervosum</i> Hend. & W.S.                                     | Bintangor                       |
| <i>C. ferrugineum</i> Ridl.   | Bintangor                       |
| <i>C. inophylloide</i> Linn.  | Bintangor                       |
| <i>C. macrocarpum</i> Hook.f.   | Bintangor                       |
| <i>C. pulcherrimum</i> Wall.  | Bintangor                       |
| <i>C. sclerophyllum</i> Vesque  | Bintangor                       |
| <i>C. symingtonianum</i> Hend. & W.S.                                       | Bintangor                       |
| <i>C. tetrapterum</i> Miq.  | Bintangor                       |
| <i>C. wallichianum</i> Planch.  | Bintangor                       |
| <i>Chlorophora excelsa</i> Benth. & Hook. f.                                | Iroko                           |
| <i>Coelostegia borneensis</i> Becc.   | Durian                          |
| <i>C. griffithii</i> Mast.  | Durian                          |
| <i>Cotylelobium malayanum</i> V.Sloot<br>(Syn. <i>C.lanceolatum</i> Craib.) | Resak                           |
| <i>C. melanoxyton</i> (Hook.f.) Pierre                                      | Resak                           |
| <i>Dipterocarpus acutangulus</i> Vesque                                     | Keruing                         |
| <i>D. apterus</i> Foxw.   | Keruing                         |
| <i>D. baudii</i> Korth  | Keruing                         |
| <i>D. caudiflorus</i> Merrill   | Keruing                         |
| <i>D. chartaceus</i> Sym.   | Keruing                         |
| <i>D. concavus</i> Foxw.  | Keruing                         |
| <i>D. confertus</i> V.Sloot   | Keruing                         |
| <i>D. cornutus</i> Dyer.  | Keruing                         |
| <i>D. costulatus</i> V. Sloot.  | Keruing                         |
| <i>D. crinitus</i> Dyer.  | Keruing                         |
| <i>D. dyeri</i> Pierre  | Keruing                         |
| <i>D. gracilis</i> Bl.  | Keruing                         |
| <i>D. grandiflorus</i> (Blco.) Blco.  | Keruing                         |
| <i>D. kerrii</i> King   | Keruing                         |
| <i>D. kunstleri</i> King  | Keruing                         |
| <i>D. lowii</i> Hook.f.   | Keruing                         |

| <i>Botanical Name</i>                      | <i>Standard Trade Name</i> |
|--|----------------------------|
| <i>D. obtusifolius</i> Teys. ex. Miq.      | Keruing                    |
| <i>D. rotundifolius</i> Foxw.              | Keruing                    |
| <i>D. sublamellatus</i> Foxw.              | Keruing                    |
| <i>D. verrucosus</i> V.Sloot               | Keruing                    |
| <i>Dryobalanops aromatica</i> Gaertn.f.    | Kapur                      |
| <i>D. beccarii</i> Dyer.                   | Kapur                      |
| <i>D. fusca</i> V. Sloot                   | Kapur                      |
| <i>D. keithii</i> Sym.                     | Kapur                      |
| <i>D. lanceolata</i> Burck                 | Kapur                      |
| <i>D. oblongifolia</i> Dyer.               | Kapur                      |
| <i>D. rappa</i> Becc.                      | Kapur                      |
| <i>Durio carinatus</i> Mast.               | Durian                     |
| <i>D. grandiflorus</i> Becc.               | Durian                     |
| <i>D. graveolens</i> Becc.                 | Durian                     |
| <i>D. lowianus</i> Scort. ex. King         | Durian                     |
| <i>D. malaccensis</i> Planch               | Durian                     |
| <i>D. oxleyanus</i> Griff.                 | Durian                     |
| <i>D. singaporensis</i> Ridl.              | Durian                     |
| <i>D. wyatt-smithii</i> Kost.              | Durian                     |
| <i>D. zibethinus</i> Linn.                 | Durian                     |
| <i>Endiandra palmerstonii</i> F.M. Bail.   | Australian Walnut          |
| <i>Entandrophragma cylindricum</i> Sprague | Sapele                     |
| <i>E. utile</i> Sprague                    | Utile                      |
| <i>Ganua curtisii</i> H.J.L                | Nyatoh                     |
| <i>G. kingiana</i> Van den Assem           | Nyatoh                     |
| <i>G. motleyana</i> Pierre                 | Nyatoh                     |
| <i>Homalium foetidum</i> Roxb.             | Malas                      |
| <i>Hopea beccariana</i> Burck              | Merawan                    |

## Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act, 1986* to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

### Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Director (Publications), BIS.

### Review of Indian Standards

Amendments are issued to standards as the need arises on the basis of comments. Standards are also reviewed periodically; a standard along with amendments is reaffirmed when such review indicates that no changes are needed; if the review indicates that changes are needed, it is taken up for revision. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition by referring to the latest issue of 'BIS Handbook' and 'Standards : Monthly Additions'.

This Indian Standard has been developed from Doc : No. CED 9 (4914).

### Amendments Issued Since Publication

| Amend No. | Date of Issue | Text Affected |
|-----------|---------------|---------------|
|           |               |               |
|           |               |               |
|           |               |               |
|           |               |               |
